A RANDSRURG, CAL., MINE BECOMING A GREAT PROPERTY. Rich Discoveries of Gold in Hurlbut Guleb,

Mon. Shipping Lake Superior Iron Oreto Tide Water Gold Dust from Cook Inlet— The Ballway from Skagway to the Yukon. LOS ANGELES, July 16.—The interests of J. B. Haggin and the Hearst estate in the Sheep Bagelia and Calaveras county, have been bought by W. H. Clary for \$00,000. The property consists of thirteen claims and 480 acres of timber. A promising sulphur discovery has been made near Pentz, Butte county. The Stickels mine at Angel's, Calaverse county, will be closed down in September for extensive

The Santa Rosa gravel mine, near Volcanoville, El Dorado county, has been bonded to W. Simms of Sacramento. The cyanide test at the Taylor mine has been so successful that seventest additional tanks will be erected. The Griffith Consolidated, near Diamond Springs, bas a three-foot ledge of ore in a new shaft which goes from \$40 to \$90 per ton. There are on the dump 4,000 tons of high-grade ore. The Larkin mine has a chute of good ore sixteen feet wide, and is about to add ten more stamps to its milling plant. At the Grand Victory mine thirty stamps are crushing daily sixty-five tons of ore that runs from \$2 to \$10 per ton. The ore body measures seventy-five feet wide.

The Yellow Aster property at Randsburg, Kern county, is rapidly taking its place among the big mines of California. The vein in this group is said by experts to be a true fissure from four to thirty feet in width. A number of smaller veins from six inches to fifteen feet in width, some of them assaying wonderfully high, were cut last winter during the running of a tunnel. The company is now running a level to tap the Trilby ledge at a depth of 750 of a tunnel feet. Many experts who have examined the formation think that these veins will all come together at that depth and make a solid ore body that will be one of the big ore deposits of the world. But whether they do or not there is enough high and low grade ore above the present level unstoped to keep a 50-stamp mill busy for the next twenty years. The company is now milling daily about 100 tons of highgrade ore averaging \$50 per ton. The bullion product since the first of last January has been \$240,000, and as improved milling facilities are being added the monthly output is rapidly increasing. Dividends have been paid to the amount of \$50,000 and a surplus is kept in bank of \$25,000

The litigation in which the Bullion mine at Mohawk, Plumas county, has been involved has been settled and work on the mine has been resumed. At the placer camp in the Pintos, Riverside county, the dry washers are making good runs. Some good-sized nuggets, one of \$38 and another of \$78, have been found. W. D. Bannister & Co. have purchased the White Lead gravel mine, Tuolumne county, and will give it adequate development. It has never been mined at depth, but has produced well at the surface. The Seminole mine has been unwatered and work has begun on it. Operations have been resumed at the Agnes mine near Soulsbyville. The Densmore mine, near Parrott's Ferry, has a four-foot vein of high-grade ore. The Gerrymander, near Sonora, has uncovered a vein twelve feet wide. NEVADA.

VIBOINIA CITY, July 16 .- The Magnolia mine at De Lamar recently marketed a carload of gold ore which brought \$210 per ton net. A mill will be built at the mine next spring, which will give De Lamar three mills and increase the output of the camp to more than 100 tons per

day.
The Gold Crown, at Aurum, has shipped a carioad of ore which averaged 95 cunces of aliver per ton. Placer miners in Van Duser district are making \$7 per day with a small head

MONTANA. BUTTE, July 19.—Reports from Hurlbut Gulch in the Tobacco Root Bange, Madison county, are to the effect that there is much excitement there over reported rich discoveries of gold ore. Butta men are figuring with the owners

for purchase of the properties.

Bennie Hinds and Ed Hughes have taken an eighteen months' lease on the Lincoln, an ex-tension of the West Eagle lode at Butler.

The great mines of Lump Gulch are one by one recovering from the depression of two years ago. The south drift of the 500-foot erosscut tunnel of the Keystone is in nearly 100 feet on the lead and shows the best ore to be found anywhere in the mine. The drift follows the footwall, and only about twelve feet of the vein has been exposed. It is evident, however, that they have entered the Big Stope of the upper level, and that it is fully as strong and as large as it is above, where it is known to

the upper level, and that it is fully as strong and as large as it is above, where it is known to be sixty feet wide. The ore below is of superior quality. It is thought to be the richest free-milling ore of the camp.

For a distance of eighteen or twenty miles the valley of Hughes Creek, in the Bitter Root country, shows side gulehes and tributaries which prospect in gold. Wherever bed rock is reached gold in paying quantities is taken out. The ground varies, but the richest claim prover, thus far is the Ort and Malloy ground. About twelve miles up Hughes Creek and sevingthy miles from Hamilton is the camp of the Wood Placer Mining Company. The incorporation includes nineteen claims. The company has undoubtedly taken out considerable velvet. The Ort and Malloy claim, the richest on the creek, is tied up by litigation.

Gold was discovered on Hughes Creek thirty years ago by Barney Hughes, the discoverer of the Idaho Hughes Creek. He did not find gold in paying quantities at that time and the creek was forgotten. About five years ago Arthur Woods prospected the creek made some locations, and at last convinced the public that the diggings were all right. Hughes Creek flows in a westerly direction, emptying into the south fork of the west fork of the Bitter Root about saxty miles southeast of Hamilton. The summit of the mountain which skirts the south bank of the creek is the boundary line between Montana and Idaho. The Idaho Hughes Creek diggings have produced vast sums in gold slove their discovery. Hughes Creek in Idaho and the Montana Hughes Creek head almost together.

A number of capitalists styled the Bordeaux Syndiente have begun sinking on the Meaderville flat, using the same sinking plant at one time in piace on the Ella shaft, from which several thousand dollars worth of silver ore was taken.

The Big Bonanza, north of Walkerville, has taken.

eral thousand donars works taken.

The Big Bonanza, north of Walkerville, has the Big Bonanza, north of Walkerville, has the become a paying proposition. Ship-that become a paying proposition which is now

The lig Bonanza, north of Walkerville, has at last become a paying proposition. Shipments of silver ore from the mine, which is now down 380 feet, are giving returns of 100 ounces of silver to the ton. The lig Bonanza is one of the properties in the silver belt where bunches of gamee copper have been found, and the story that a good copper lead has been cut into has several times been started. Some rich veins of silver ore have been cut several times, but it is only within the past month that shipments of good commercial ore have been made.

\*\*SEATTLE, July 17.—The two 120-stamp mills and the new 300-stamp mill of the Treadwell and the new 300-stamp mill of the Treadwell and Ready Bullion, on Lougias Island, are now under cover and the machinery is being placed in Position. This work has been carried on since early last spring. The stamps in the two smaller mills will be dropping on ore in August. The first gold dust from Cook Inlet, amounting to \$19,000, came out the past week, being from the first clean-ups along Six-Mile and other creeks. The output of the district promises to greatly exceed that of last season. In August a number of hydraulic plants will be in Geration.

t week the Seattle purchasers of the Lady Lake and Black Wolf claims, near Cape of the Lake and Black Wolf claims, near Cape Fox, took bessession of the property and put men on development work. They have discovered a body of Pay ore at the water's edge, where it can be loaded upon vessels and shipsed to the Puget Sound smelters. The Skanway and Lake Bennett Railroad, which is a link in a popular route to the Yukon, is now completed seven miles from Skanway. Three engines, passenger coaches, and freight cars arrived last week. By September it is anticipated that the time between Dawson and Skanway will be abe at four days, and the hard work of packing provisions over the mountain trails will be a thing of the past.

Washington.

SEATTLE, July 17.—In the new mining district opened up on the south half of the Colville Indian Reserve is a mountain the miners have designated as "Old Giory." It is on the divide between the San Poil and Nespelim Rivers, thirty-five miles south of Republic Camp, and embraces a mineral belt eight miles wide and twelve long. The summit is mass of quartz our of which is flowing a large leed sulphur spring. One ledge within this mineral belt is 388 feet wide, the ore being low grade, but in great quantities. Fifty locations have been made and assays show values from \$5 to \$32 to the ton in all metals, but chiefly gold and slighest assay obtained was \$121 in behilments are being made from the mines at WASHINGTON.

pany has organized for the coming season and desires from the find and subject assay obtained was \$121 in bill ments are being made from the mines at hidex and on Miller River, the product going to the X-verett smelter. The ore is passing over the how wagon road and trails, and is of grade [Rewark, N. J.]

sufficiently high to make good returns. Four properties are embraced in the shipping list.

The "45-Mine" in Silverton district, which has several thousand tons of ore on the dump and has paid the work of development out of the mine, has resumed shipments.

The cutput of the Swank placer mines during the past week was a little in excess of \$900. It was sent to the Government Assay Office in Scattle.

LARE SUPERIOR.

UTAH.

SALT LARE, July 18.—The Mercur Company will increase the capacity of its mill to 350 tons daily. The enlargement of the Golden Gate mill at Mercur is also in progress.

A permanent State exhibit will be made of the cres on exhibition during the mining congress.

GUAYMAS, July 17.—H. D. Blake of Los Angeles, Cal., has struck a very rich lead on the Aros River, in the Sierra Madre Mountains, 122 miles from Casas Grandes. It is a seven-foot vein assaying 900 ounces of silver per ton and 22 per cent, lead, and part of the ore also returning two ounces of gold to the ton. He traced the lead for fifty yards and is confident the deposit is a very large one.

A rich strike of high-grade gold ore has been made in the Francisca and Esperanza mines at Guacomea. Thirty-two new claims are being surveyed.

Guacomea. Thirty-two new claims are being surveyed.

Don Aurelio Bueno has purchased a controlling interest in La Reina mine, in which it is estimated that there is in sight ore to the value of \$1,000,000.

The Juarez Concentrating and Smelting

New York's Model Yacht Defeats the Mabel of Brooklyn.

The challenge race between the New York Model

Yacht Club and the Wave Crest Miniature Yacht Club

of Brooklyn was decided yesterday off the clubhouse of the Wave Crest Club, foot of Fifty-eighth street,

Bay Ridge. The Foam, owned by Commodors E

Webber of the New York Model Yacht Club, was the

challenger, and the Mabel, owned by John Anderson

of the Wave Crest Club, the defender. The race was sailed in two heats, the New York boat winning both in hollow style. Both boats are of the new fin keel type. The course was a short half mile doad to windward, a leg of a quarter of a mile each way.

SECOND HEAT.

Eleven Straight Wins for Capt. Kipp's Zetes.

The yacht race that was arranged for the old-time

sloops, sailing without time allowance, over a triangular course off Oak Point yesterday, ended in a drifting match, in which J. A. Kipp's 25-footer Zetea

was the only one that finished inside the time limit

of six hours. She won the loving cup presented by

The competing boats were divided into three classes, but interest was centred in the performances

of the Zetes, May Be, and Lady. The start was made

Gaia Day Among the Hudson River Yachts-

There was plenty of fun and activity in and about the pretty home of the Hudson Biver Yacht Club

yesterday. The members had prepared a gala time for their women friends, who were present in large numbers. The weather was all that could be de-

sired when a salute of three guns from Commodors Dean W. Chute's fiagship gave the signal to the boats

of the fleet that a short cruise was in order to Fort Lee

of the fleet that a short cruise was in order to Fort Lee. Immediately crews began hoisting sails and the women went down the boardwalk to the float and got aboard the different boats. As the fleet moved out into midstream it formed a splendid marins speciacle from the heights of Morningride Park at the foot of West Shinety-second street, where crowds had gathered for a day's outling. It appeared as if the boats tried to outdo each other in the way of decorations. Old Glory floated from the mastheads and suspended from bow to stern were rows of flags of all colors and nations. In the evening rows of lighted Japanese lanterns threw a kaleidoscopic effect on the river. The balconies of the clubhouse were also decorated in a like manner.

Odds and Ends of Sports.

The football team of the Prudential Insurance Con any has organized for the coming season and desire

J. A. Rae.

MEXICO.

at the Seaside Course—Another Open Tournament at Cooperstown—The Roch-ester Country Club Team's Challenge. BRITISH COLUMBIA.

SEATILE, July 17.—The prospect for the early completion of the Crow's Nest Branch of the Canadian Pacific is stimulating mining operations in Fort Steele, East Kootenal district. This road will afford easy and cheap transportation for the ores, which are very abundant. The Dibble group, owned principally by George E. Foster, ex-Minister of Finance of Canada, is one of the largest mines in this division, and on the dumps are several thousand sacks of ore that will assay from \$200 to \$300 to the ton. This property is developed to a depth of 500 feet. The annual tournament of the Shinnecock Hills Golf Club will begin to-morrow and it will likely call a large quota of the amateur colfers to the beautiful links on the sand dunes near Southampton for a week of good sport on the seacoast. Since the beginning of golf at Shinnecock five years ago the annual open ournaments, which include one national feet.
The North Star mine's output this year will exceed 5.000 tons. The average value of the North Star ore is from \$80 to \$90 per ton in gold and silver.
The Sullivan group, three miles from the North Star, at a depth of forty feet, within the past week, uncovered a body of high-grade silver-lead or twenty-five feet wide. championship, have been the most important of the summer events. Whigham first gained championship honors on the links, and many olfers of minor fame got their first distinction there; for instance, Foxhall Keene, who from golfing obscurity jumped into renown silver-lead ore twenty-five feet wide.

SOUTH DAROTA.

DRADWOOD, July 21.—Work has begun on four furnaces for the D. & D. smelter, making six in all, capable of handling 300 tons of ore daily.

The property of the Union Hill Mining and Smelting Company was bid in by a reorganization committee lastweek, and steps are being taken to put the property in shape for mining.

The Gilt Edge mine is producing fifteen tons of high-grade ore daily with only three men at work. As soon as the smelter and chlorination works at Rapid are completed the output will be increased to forty tons a day, and all the product will be shipped there for treatment. At the Dajota Maid, adjoining the Gilt Edge on the east, ore bins and tracks are being built, and the mine will resume shipment very soon. last year by lasting out to the finals with James R. Tyng. This year the tournament is only for players from clubs that have been in-vited to send representatives, yet to all intents it is an open event. In the qualifying round in 1897, of eighty-six starters, all except twenty were entered from outside clubs. Should each club invited this year send four of its best men, as requested, there will be about sixty starters in the qualifying round to-morrow. A special prize will be awarded to the club whose team makes the best showing in the qualifying round. The following is the

condensed programme of the week:
Tuesday, President's Cup, 10 A. M. and 2 P. M.—
Thirty-six holes, medal play, best sixteen scores to qualify. Prize presented by club for best score of 18 LAKE SUPERIOR.

DULUTH, July 22.—Only once in the history of western Lake Superior have there been shipments of iron ore to furnaces on tide water, and that was about ten years ago. Now the Cleveland-Cliffs Company is shipping a large quantity of its low-grade siliceous ore to Sparrow Point, Md., for the use of the Maryland Steel Company, and this shipment is to be followed by others.

The sale of the Zenith mine, Vermillion range, to the Carnegie and associated companies is now admitted, and the new owners have squared up delinquent accounts. The mine will probably begin operations early in the fall, in preparation for shipments next year. The Lake Superior Consolidated Mines (the Rockefeller Company) have secured an option on the Roucheleau mine, Mesaba range, for \$500,000 and is expected to take the mine. It had an option four years ago for \$1,250,000, and paid down \$125,000, but changed its polley and dropped the deal.

Shipments from the Chandler mine are new 280 carloads, or 6,500 tons, daily. This is a rate not equalled by any other lake mine. At this rate its allotment of 700,000 tons for the year will be filled in less than six months. holes.

Wednesday, President's Cup, 10 A. M.—First round, match play, 18 holes, open to the sixteen players making the best scores in the medal rounds. 2 F. M.—Second round, President's Cup, 10:30 A. M. and 2:30 F. M.—Consolation Cup, 86 holes, medal play, best eight scores to qualify. Open to all contesiants in medal round for Fresident's Cup who have haded in complete cards and who have not qualified for the President's Cup.

President's Cup.
Thursday, 10 A. M.—Third round, President's Cup.
10:80 A. M.—First round, Consolation Cup, match
play, 18 holes, open to the eight players making the
best scores in medal round. 2 P. M.—Second round,
Consolation.
Friday, 10 A. M. and 2 P. M.—President's Cup,
finals, 86 holes, 10:30 A. M. and 2:30 P. M.—Consolation Cup finals. finals, 36 holes. 10:30 A. M. and 2:30 P. M.—Con-solation Cup finals.

Saturday, Handicap, 10 A. M. and 2 P. M.—Thirty-sir holes, medal play, handicap limited to 18 strokes. Trustees Plate, medal play, player making the best score of the day, 18 holes, is the Shinnecock Handi-cap, to be the winner.

There will be another open tournament on the links of the Otsego Golf Club, at Cooperstown, on Aug. 11, 12, and 13, but unlike the event of a fortnight ago, when S. D. Bowers won the first cup irom scratch, the play will be without handicaps either in the qualifying or match rounds. The qualifying round will be at thirty-six holes, medal play, the best eight scores to qualify for the Cooperstown Cup, presented by the Messrs, Clark, and the next eight to be eligible for the Susquelanna Cup, presented by the Otsego Golf Club. The match play rounds will be at eighteen holes. There will be a medal play handicap on the last day, at eighteen holes, for a cup and minor prizes, open only to the players defeated in the qualifying round. The tournament will be open to all amateurs belonging to clubs recognized by the U. S. G. A. and to guests of members of the Otsego Golf Club. The entries close on Aug. 10, with L. J. Arnold, Secretary, Cooperstown, N. Y. town, on Aug. 11, 12, and 13, but unlike the the ores on exhibition during the mining congress.

The Galena mine at Fish Springs, heretofore a producer of silver and lead exclusively, has developed into a gold proposition by the uncovering of a body of ore running \$5.

In Three-Mile Cafion, Boxelder county, Messrs, Crowther and Housicy are developing a claim showing ore averaging 57 per cent. lead, 14 ounces silver, and \$1.85 in gold.

The Dana group at Tintic has been bonded to Messrs, Leyshon and Holmguist for \$45,000. Tintle shipped during the week fifty-six cars of ore, two cars of concentrates and three bars of builton. Neither the Builton Beck nor the Eureka Hill are shipping, but other properties are making up for the deficiency.

ROCHESTER, July 24 .- The Country Club golf. team of this city, believing from the results of its various contests that it is in a position to play any team in the country consisting of from twelve to filteen men, with fair chances of winning on foreign grounds and more than an even show on its own course, is anxious to arrange for a team match or matches with some one or more of the most prominent Eastern clubs. The Country Club's entrance into the golf world was made unassumingly four years ago, the team then being called the Thistie Golf Club. At the time there was little belief that any of the members would ever prove to be players of more than ordinary merit, but now there are at least fifteen men who are nearly evenly matched and will undoubtedly prove a difficult proposition for any similar team from any one club in the country to defeat. A couple of weeks ago the Country Club team scored its second victory out of three meetings over the Toronto Golf Club by the score of 20 up. The Canadian team came here and was anxious to wipe out its defeat on the local grounds a year ago. Heading its list of players were A. W. Smith, runner-up in the Edinburgh tournament of last year, and W. H. Kerr, the Canadian amateur champlon. These stars were pitted against Gurney T. Curtis, undoubtedly the best player on the local team, and J. G. Averell. Both of the Country Club men were beaten, although Smith had to equal the club record to do it and Kerr to set new figures for the course. A. H. Campbell beat Lecand L. F. Edgar beat Perkins. With those exceptions the nearest a Canadian came to defeating a local man was when G. T. Brown tied J. C. Powers. Thus four out of the fourteer visiting players won from the Rochester men. The local team claims no stars of particular magnitude, but does believe that for consistent golf by a large number of members it can make an exceptional showing and is therefore anxious to test its skill with Eastern clubs that it has not yet met. Gurney T. Curtis numbers among his victories one over S. D. Bowers of the Otsego Golf Club this yea team of this city, believing from the results of its various contests that it is in a position to play any interest in La Reina mine, in which it is estimated that there is in sight ore to the value of \$1,000,000.

The newly discovered mine La Guillotina, in the district of Concepcion del Oro, Zacatecas, is attracting attention. The discovery consists of exceedingly rich orea, assaying 46 kilos gold per ton, it is the property of Señor Don Salvador Malo. It is said that the Villaldama, at Carmen, State of Nuevo Leon, is producing 400 tons monthly, all of which is sent to the San Luis Potosi smelter.

At Cucube, Sonora, Bonney & Kearney are developing a property and erecting a mill of forty tons daily capacity. Cranz Brothers have bought a group of mines near Alamos, upon which they are doing extensive development work and building a ten-stamp mill. Alamosis shipping from \$10,000 to \$15,000 worth of gold builtion monthly.

The gold, silver and copper coined by Mexico during the last seventeen years has averaged about \$23,000,000 per year.

The official report of the Batoplias mine, Alexander Shepherd's bonanza property, for the year 1850-47 shows that ore to the value of over \$407,000 was taken out. But the expenses were so great that there was a deficit of nearly \$500,000. Works were located on the Mexican side of the Bio Grande in order to avoid the payment of high duties on the lead contained in the crude ores. The concentrator will have a daily capacity of 200 tons, and the sampling works of 500 tons. Two 100-ton smelting furnacea, one for silver and lead and the other for copper, will soon be added.

El Bolio copper mine, at Santa Rosalia, Lower California, the property of Afrien Mathiot, produces about 1,000 tons of copper monthly. Machinery will soon be put in which will enable the mine to produce 2,500 tons monthly. holder of the local course record; J. P. Bowman and Lee are the remaining members of the team of six which won the championship of the Central New York Golf League this season for the second time. Josiah Anstice is captain of the team. A representation will be sent to the Canadian championships in September, and before that tournament a return match will be played at Toronto with the Toronto team. A match between Arthur Smith, the Toronto club's professional, and Albert Ricketts, the Country Club's professional, and Albert Ricketts, the Country Club's professional, will be played here shortly, and a return match will take place at Toronto at the time of the interclub team match. The Country Club has an eighteenhole course on its grounds near this city, with a large and well-appointed house.

NOTES.

The individual championship of the Philadelphia Golf Club League will be played at the Huntingdon Valley Country Club on Oct. 15. F.

H. Bohlen and J. Wilmer Biddle, who hold the record at 38, of the Philadelphia Cricket Club course, are prominent candidates for the honor.

There will be no cessation of golf at the Staten Island Cricket and Baseball Club next month. The monthly handicap will be played on Aug. 25, and the Doctor's Cup handicap on Aug. 27.

An open tournament for a cup and minor prizes will be played on the Mount Pleasant links in the White Mountains to morrow. The Waumbek links were formally opened last week, and the Rev. 8. De Lancey Townsend of this city established the nine-hole record of 42 strokes.

Teams representing the New York Cotton and Coffee Exchanges will play a match to-day on the links of the Staten Island Cricket and Baseball Club. NOTES. of the Zetes, May Be, and Lady. The start was made at 12:15 o'clock, after a five-minute preparatory gun, and under the light breeze from east southeast the triangular course was a beat to windward, a close reach on the port tack, and a run with spinnakers to port. The yachts sailed three times around the course, a distance of fifteen nautical miles. The wind held steady and true during the first two rounds, but during the third circuit veered more to the southward, and finally died out to a fat calm. The Zetes crossed the finish line at 5:28 o'clock, making her elapsed time 5 hours and 18 minutes. Yesterday's victory made eleven straight for Capt. Ripp's Sycr.

To Defend Indicted Knights.

An appeal was sent to the Central Labor Union yesterday from District Assembly 68 of Washington asking for support in raising a fund to defend eleven members of No. 66 who have been indicted for conspiracy by the Grand Jury of the District of Columbia. The indictment grew out of a boycott declared against Charles C. Walters, a carriage manufacturer. The word boycott was not used, but the firm was declared to be an "unfair" one, which means that it is not a union firm. The C. L. U. voted \$10 to the defence fund.

Three Girls at a Birth. TRENTON, N. J., July 24.-Mrs. Joseph Lavine of 624 South Warren street, yesterday became the mother of triplets, all girls. One of the three is much smaller than her sisters and weighs but three pounds. Mother and daughters are doing well. The Layines are Russian Jews. The husband is 34 and the wife 52 years old.

\$1,700,000 7% Cumulative Preferred Stock 500,000 First Mortgage 6% Gold Bonds

## **United States Envelope Company**

Being the part not already subscribed for, of the authorized issue of \$3,000,009 Bonds, \$3,750,000 Preferred Stock and \$750,000 Common Stock of the above Company.

OFFICERS: President, CHARLES H. HUTCHINS, Vice-Presidents, JAMES LOGAN, ELISHA
MORGAN, WM. H. PRESCOTT; Treasurer, ROBT,
Secretary, Walter G. MORSE.
DIRECTORS: L. B. PLIMPTON, JAR. T. ABBE,
G. HENRY WHITCOMS, ELISHA MORGAN, JAMES
LOGAN, WM. H. PRESCOTT, NATHAN D. BILL,
CHAS, W. GEAY, GEORGE D. DUTTON, FREDRICK T. RELIGIOG, CHAS, H. HUTCHINS, and one
other to be added. TRUSTEE: OLD COLONY TRUST COMPANY,

new Corporation.

According to their report the ten companies, operated under one head, will show, by a conservative and careful estimate, an increase in net carnings above that now made of ever \$400,000 per annum. This increase will be made through the savings in buying, manufacturing, selling and shipping, and not by raising the prices on the standard goods.

THE PREPERRED STOCK of \$100 per share is cumulative, and dividends of 7 per ceut, per an-ROSTOR.

REGISTRARS: PRODUCE EXCHANGE TRUST COMPANY for New York, and AMERICAN LOAN AND THUST COMPANY for Boston.

TRANSFER AGENTS: STATE TRUST COMPANY for New York, and OLD COLONY TRUST COMPANY for Boston. PANY for New York, and OLD COLONY TRUST COM-PANY for Boston.

COUNSEL: DUNBAR & RACKEMANN, Boston;
OHN HAMPTON BARNES, Philadelphia; CHARLES cumulative, and dividends of 7, per cent, per au-tum are payable September and Macch. It has full bling power, and together with the common stock registered and is issued full paid unassessable, strying no personal liability. M. THAYER, Worcester,
THE UNITED STATES ENVELOPE COMPANY owns and comprises the following well-THE UNITED STATES ENVELOPE COM-PANY owns and comprises the following well-known, long established and profitable companies: The White-Corlin & Co.; Logan, Switt & Brigham Envelope Co.; Morgan Eavelope Co.; Whitcomb En-velope Co.; Plimpton Mig. Co.; P. P. Kellogg & Co.; Holyoke Envelope Co.; National Envelope Co.; W. H. Hill Envelope Co., and the Springfield Envelope Co., controlling about 40 per cent. of the entire produc-tion of commercial envelopes in the United States, Output, 17,000,000 per day; capacity over 20,000,000 per day.

PRODUCE EXCHANGE TRUST COMPANY . . . . New York

carrying no personal liability.

THE GOLD BONDS of \$1,000 each are a first mortgage on the land, buildings, and machinery of the corporation. Interest 6 per count, per annum, payable January and July. Dated August 1st and run for 20 years, with privilege of being redeemed after 10 years at 104. A sinking fund of \$75,000 per annum begins three years from date of organization to be set aside before payment of dividend on common stock. Bonds may be registered. THE COMMON STOCK has been entirely sub-scribed for at par by those directly interested in the

output, 17,000,000 per day; capacity over20,000,000 per day.

All of the properties are very extensive and valuable. The machinery and equipment is modern and of a high degree of efficiency. The properties are free of all debts and incumbrances, and in addition to its quick assets the new corporation starts with an extra cash capital of \$270,000.

Excelopes are now a necessity. The industry is an important, staple and growing one, and is not affected by the tariff or financial disturbances.

The management, as can be readily seen, is strong, experienced, capable and conservative.

A thorough examination of these corporations and at 30 clock P. M., Thursday, July 28th, at the following has been entirely subscribed for at par by those directly interested in the management, application will be made to list the Bonds and Preferred Shareson the New York and Boston Stock Exchanges.

SUBSCRIPTIONS to the \$1,700,000 Preferred Stock and \$500,000 Bonds at par will be payable 10 per cent, on application and 10 per cent, on allothough the payable of the properties are freed for at par by the small properties of the management.

Gossip of the Handball Courts.

Dr. A. M. Gillen, one of the cleverest graduates from Billy Courtney's noted handball nursery at Bouth Brooklyn, is proving a harder proposition than Eddic Lawlor of Greenpoint anticipated. The pair met on club day at the Brooklyn court, in the first division of a home and home match of best of eleven games for \$25 a side. Lawlor was compelled to stop in the fifth game after losing the previous four, so that Gillen has only one more to win when the pair most to light it out at Greenpoint July 31. Gillen won his games as follows: 21-17. 21-18. 21-16. 21-0, 15-5. Other winners during the session in-cluded George Heaney, J. O'Donnell John Murphy, Thomas Reagan Jerry Murphy and J. McElroy. Thomas Reagan Jerry Murphy and J. McElroy.

The Manhattanville court was thronged on club day, and a dozen matches furnished spirited sport for the gallery. In the long rubbers W. P. Cashman and J. M. Murray beat J. McCarthy and J. Glynn three games to two; M. J. Egan and F. Fay out jointed J. Fitzpatrick and C. Cashman by a similar margin, and Daniel Lynch scored over T. I. O'Connell. The winners of the three-game rubbers included F. McGrath, B. Kelly, J. Brennan, P. Kenny, J. Kenny, J. Bonshue, J. Falvey, M. Landy, J. Glynn, Dr. D. McGarthy, P. Donnelly, J. Fisherly, P. Egan, P. Foley, W. J. Cashman, and M. O Bourke.

**Nervous Exhaustion** Hersford's Acid Phosphate is supremely beneficial. Put up only in bottle
